

BURT GOLDMAN PRESENTS
QUANTUM JUMPING
SPECIAL REPORT

THE INVISIBLE ANCHOR

How Your Past Lives Are Secretly Weighing You Down

Do you sometimes feel like there are “Invisible Anchors” tied to your subconscious, weighing you down? I don’t mean in the physical sense. But emotionally or spiritually?

Examples might be:

- A fear or phobia that limits you from living the most fulfilling life possible
- Low self-esteem or lack of confidence that holds you back in your career
- Feeling a lack of control of your destiny or connection to your true self
- Chronic pain or illness that has no real cause
- Inexplicable feelings of sadness or depression
- Lack of faith that you can reach a certain goal related to your wealth, health or relationships
- An unusual negative charge towards someone in your life

Chances are, these anchors are negative experiences and emotions carried over from a past life.

What if there was a way to identify these “Invisible Anchors” in your life and instantly remove them?

Well, there just might be a way with something called Past Life Regression—the practice of clearing away negative experiences and emotions carried over from a past life that are holding you back.

Let me recap the two key concepts I introduced to you in my latest video, that one must come to accept when trying to understand Past Life Regression.

I) Reincarnation

The idea that upon death, your soul or consciousness does not truly die but lives on and carries with it some of your past life memories. This can also be called rebirth, metempsychosis, transmigration, re-embodiment, evolving consciousness. They all represent the same thing.

"Is there such a thing as reincarnation?" to which God replied "You have had 647 past lives, since you insist on being exact. This is your 648th. You were everything in them. A king, a queen, a serf...."

– Neale Donald Walsch, "Conversations With God"

II) All Time Is Happening Right Now

This concept is rooted in Quantum Physics. The idea that time flows or has a fixed past, immediate present and open future, has been built into our language, thought and behavior. We say "past lives" because that is what makes the most logical sense to us right now. However, in actuality, your past lives are all coinciding with your current one right now. What this means is that when you die, you are not limited to choosing a new life in the future. In fact, you can choose a life at any point in the existence of human kind. You can choose to come back as an ancient Egyptian, an American soldier during civil war, or a Mongolian shepherd. You choose.

"People like us, who believe in physics, know that the distinction between past, present, and future is only a stubbornly persistent illusion."

~ Albert Einstein

Now, there's ONE more concept that I think deserves some serious thought. This, of course, has not been proven by researchers and scientists like the first two, but just remember that every discovery was once undiscovered.

III) Quantum Jumping Into Parallel Time Dimensions

Just as you can jump into multiple universes co-existing with this one, you can jump into parallel dimensions of time because all time is happening right now.

Now, you Quantum Jumpers might understand this better than others. Just as you can jump into alternate universes to meet your doppelganger who is a rock-star, politician, school teacher, entrepreneur or president in THIS time dimension, you can jump into another time dimension to clear away memories or emotions that are holding you back in this life. I know this can be a lot to take in right now, but I think you catch my drift, right?

Past Life Regression is already such a powerful tool. It can help you:

- 🎧 Overcome grief and depression
- 🎧 Conquer any fear or phobia
- 🎧 Tap into your creative genius
- 🎧 Connect to your TRUE self
- 🎧 Regain control of your destiny
- 🎧 Find the root cause of chronic pain or illness

To give you some examples, let me share with you some case studies of people who have used Past Life Regression to improve their lives.

Pauline used Past Life Regression To Overcome Her Phobia of Flying

Pauline turned to Past Life Regression for phobia of flying which was so severe that when she flew anywhere on holiday she was so distressed that she became the in-flight

entertainment for other passengers! Past Life Regression revealed that the cause of the fear was from a past life during World War II where her husband (an RAF pilot) was shot down and killed. As part of her Past Life Regression process, she learned to release the emotions she held onto and a few weeks later went on a 10 hour flight with no problems.¹

Carol used Past Life Regression To Cure Her Respiratory Illness

Past Life Regression also helped Carol Bowman, a trained counselor, when she faced a life threatening respiratory illness in late 1986. During her sessions, she pieced together details about her past life and realized the potential connection of that past to her current age and condition, which in turn helped her slowly improve her health. Healthy and completely fascinated with the concept of past life regression, Bowman went on to write two books and is considered to be one of the leading authorities on the topic.²

Past Life Regression Brings Together Two Soul-Mates

When psychiatrist and past-life therapist Dr. Brian Weiss began treating two new patients, he found that although they were strangers, they described past lives with stunning similarity of details and emotions. Incorporating Past Life Regression into a therapeutic setting, Dr. Weiss brought these two soul-mates together. They are now happily married and live in Mexico with a beautiful little girl.³

Caroline Uses Past Life Regression To Relieve Stress

Caroline, was constantly bombarded with stressful thoughts that kept haunting her mind and disturbing her current life. She found it difficult to sleep and do her job properly because so many flashes of past images kept entering her mind and felt she had to do something about it. After several sessions of Past Life Regression she now reports that she is not troubled by past images, she feels like a new CD has been placed in her mind and the an CD has been removed and destroyed. She said she feels happier than ever.⁴

Kiran Used Past Life Regression To Remove Financial Blockages

Kiran, a single mother, living with her two kids, had huge issues where she felt she had financial blockages. She finally decided to try Past Life Regression and ever

since her life has take a new direction. She feels an inner strength and and says life is so much easier and fun now. She's extremely thankful for Past Life Regressions and lives a more fulfilled and happy life.⁵

And sometimes you don't need to enter a past life to find the cause of a blockage, you simply have to go to your childhood.

In his book "The Dilbert Future," Scott Adams spoke about how he encountered a psychic who discovered that his fear of water came from an experience he had as a child. Upon speaking with her, he suddenly remembered the exact moment it happened—when placing his hands on the rail of a high bridge.

Now, what happens when you combine the powerful practice of Past Life Regression with Quantum Jumping? My guess is, there's no limit to what you can achieve.

So, how do you Quantum Jump into past lives?

First, you will need to discover how your past lives are affecting your current reality. Then, learn how to overcome your current problems that have been carried over by past life memories. Lastly, you will find out how to lift those "Invisible Anchors" for good.

But I won't let you go at it alone. In a few days I will be releasing something called the Quantum Jumping Past Life Regression Program. Now, this isn't your typical Burt Goldman course. This will be taught to you in the form of a class with new content being released every few days.

Why?

So that you don't have to go through it alone. Not only will you have me, but an entire group of students to go through the class with. You will be able to ask questions, share experiences and give me feedback. I will also be providing you with some powerful self-regression tools to help you in very specific areas of your life.

But before class starts, I have some homework for you :)

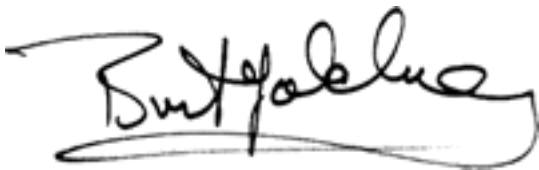

In the comments section of this [blog post](#), answer the following questions. In a few days, I will be posting my responses in audio format on the blog:

- 1) **Do you believe you have an Invisible Anchor? Tell me your story.**
- 2) **If there was a way to remove that Invisible Anchor once and for all, would you want to learn how? Why or why not?**
- 3) **What specific questions do you have about Past Life Regression or my upcoming Quantum Jumping Past Life Regression Program?**

Leave your answers [here](#).

See you in another Universe.

Sincerely,

A handwritten signature in black ink that reads "Burt Goldman". The signature is fluid and cursive, with a long horizontal flourish at the bottom.

Burt Goldman
